Your weekly guide to understanding God with others

Follow - Week 5

Tim Piesse

Introduction

When we read the Word of God we not only gain an understanding of ancient times and God's love for us, we also learn how we are to live in our world today.

Jesus lives out what is important to God. Reflect on the Bible passages and consider the works and the ways of Jesus.

Bible Passage

Luke 4:43-Luke 5:15

Discussion

1. What catches your attention regarding what Jesus is doing or how he does it? Why?
2. Touching a leper was completely out of the 'norm' for a Jewish man. What would be the equivalent today? Why do you think Jesus did this?
3. Consider your own journey of faith and discipleship. Which of your actions or views have changed on this journey? Who in your life has felt the ripples of that?

Respond

We know there were many witnesses to Jesus healing the leper, resulting in the news of Jesus spreading. Discuss the implications of the words, works and ways of Jesus. What could it look like if as believers we were more like Jesus in our community? What is something you could do this week, month or year to impact those around you?
